

Centers of the University

Special Programs

The Centers of the University were established to promote the ideals of different academic departments to deal Christianly with issues. Each Center is headed by a Director, who also serves the University as a faculty member or in other capacities.

Edward P. Hammons Center for Scientific Studies

Director: Wayne Wofford

The Edward P. Hammons Center for Scientific Studies was formed to show, by example, how science and Christianity are not only compatible, but also synergistic. Science at Union University is seen from a Christian vantage point. The Center operates with the presupposition that science as observed truth need not conflict with revealed truth and that science is impossible apart from the recognition that God has created an orderly universe. Accordingly, the Center strives to provide a fertile environment for the exploration of the nature of the universe, in order to afford a greater appreciation of the complexity and glory of God's creation. The Center seeks to accomplish this by the encouragement of excellence in research and publication by our faculty and by sponsorship of conferences, lectures by outstanding scholars, and community outreach programs.
