

Required Vaccinations

The Tennessee Department of Health has immunization requirements for those who attend college. The requirements can be found in the [Tennessee Department of Health Rules](#).

The state's immunization requirements follow the current schedule published by the Tennessee Department of Health. If you are convinced that the child has had chickenpox.

- Medical- Physician (MD, DO) or department Public Health Nurse authorized to indicate specific vaccines medically exempted (because of risk of harm) on the new form. Other vaccines remain required. The medical reason for the exemption does not need to be provided.
- Religious- This exemption requires a signed statement by the parent/guardian that vaccination conflicts with their religious tenets or practices. If the child needs documentation of a health examination for the school, must be noted by the healthcare provider on their immunization certificate. In that case, the provider should check the box that the parent has sought a religious exemption to explain why immunization information is absent or incomplete.

Specific programs within the university may have additional vaccination requirements. These requirements will be managed by the specified programs.

Students who have **not** fulfilled the immunization requirements **will not be permitted to move on campus** until it has been verified by Health Services that the appropriate documentation is received.

To ensure compliance with the above policy, Health Services will also place a "Health Hold" on a student's account. A student with a "Health Hold" **will not** be able to register for or drop classes until the appropriate documentation is received. Any variation of these requirements will be determined by the Director for Health Services.

Sincerely and appreciatively,
